Full-Stack Developer
Empangeni, KwaZulu-Natal, South Africa

Summary

Full-Stack developer with expertise in HTML, CSS, and JavaScript.
Have a passion for creating innovative and user-friendly web
applications that provide exceptional user experiences. My interest in
web development began during my high school years when i started
experimenting with HTML and CSS. I quickly became proficient
in these technologies and later expanded my skillset to include
Javascript, which allowed me to build dynamic and interactive web
applications. When iam not coding, i enjoy spending time outdoors,
gaming , and listening to music.
